HOSPITAL SITE GIVEN APPROVAL

SENTENCE TO BE IMPOSED ON KEIS IN JUDGE YOUNG'S COURT TODAY

STOCKTON, Oct. 9.—Alex. Keis, self confessed murderer, will be sentenced tomorrow morning. No attention has been given by Judge Young as to what that sentence will be, but the death penalty is expected. It was learned late today that a minute effort may be made tomorrow to save Keis from the gallows. Friends and relatives are said to be rallying to his aid, and plan to take legal steps to have him before a commission to determine his sanity. Mrs. Keis is reported to be recovering, but physicians fear that even yet the shock would be too great should she learn that her husband is alive and held for murder. News of all kinds is being kept from her.

Youth Fails To Gain His Freedom

Special spectacle of a son going to his mother as a user of intoxicants, accusations that she used force and spoke profane words, the lack of motherly love and displayed only a feeling for the money he was able to earn, was enacted in Superior Judge A. B. McKenzie's court at Martinez in trial of a suit brought by 18 year old Michael O'Neill, of Richmond, through a half brother, Daniel J. O'Neill, in which he sought emancipation from his mother, Mrs. B. E. O'Neill's statement, however failed to win the sympathy of the court immediately on submission of the case Judge McKenzie directed an order "finding for the defendant."

O'Neill complained that his mother frequently prepared his meals and that she took what money he earned at the Standard Oil company refinery. When he left home to reside with a sister he claimed his mother filed claim for his wages with the company. Mrs. O'Neill, although she admitted she used tobacco, denied swearing or using intoxicants. She broke down and cried in answering her son's accusation that she had no motherly affection for him or her other children. Her son's wages, she declared, were necessary for maintenance of herself and her home. She began using tobacco, she asserted, twelve years ago on advice of a nurse who told her it would alleviate a throat ailment.

County Health Club Will Be Organized

A meeting will be held in the court room of Superior Judge A. B. McKenzie at Martinez this evening for the purpose of forming a county health department. The department will be organized under provisions of a measure passed by the last session of the legislature.

The Bond Election

NEXT Monday night the council will make final passage of the ordinance calling a special election November 6th, at which time the people of the city will vote on three propositions: first, the adoption or rejection of a new city charter; second, to bond for \$50,000 for a public bathhouse; and third, to bond for \$150,000 for a city hospital.

At this time the Record Herald will not enter into a discussion of the merits or demerits of the different propositions, but it wishes to utter a word of warning, so that no mistake may be made.

The City of Richmond has placed in escrow a deed to a site for the bathhouse. It is on the west side, and is ideal for the purpose for which it is intended.

On the east side, the city owns a site near the city hall, that was recently relinquished by the American Legion. Two weeks ago, the council set it aside as a site for a city hospital.

Within the past few days rumors have been bruited about concerning new sites for a hospital, and opposition that has arisen to the city using what is termed the Memorial Site for the hospital. There is also talk that a free site is to be offered the city, that likely in the future, if it were accepted, and bonds carried, would be followed by a contingency arising that some interests might think it would be necessary for the city to purchase additional property.

Richmond now owns land available for a hospital site. Current reports indicate that tax payers are opposed to an expenditure of money for this purpose.

If something definite concerning the hospital site is not placed before the public there is every likelihood that the project will be defeated.

But Monday night Councilman Hartnett stated at the council meeting he was opposed to the city purchasing any additional land, and he was also opposed to voting bonds, without the site being previously determined, and afterwards part of the money voted being used for the purchase of the land.

The taxpayers generally are entitled to know just what is to be done regarding the expenditure of the money, if it is voted.

Pioneers To Be Honored At Mt. Diablo Meeting

The Contra Costa Centennial celebration which will be held on Mt. Diablo on Friday, October 12, at 2:30 p. m. is planned to honor the memory of the pioneers of Contra Costa county who made their homes in the Mt. Diablo region in 1823.

So far as the records show the names of only two early white settlers have survived the passing of a century. These names are Francisco Castro and Ignacio Martinez. As their names indicate, they were of Hispano-American origin, and as a graceful recognition of this the musical numbers will be of Spanish composition.

Mrs. Winifred Hanlon, of Martinez, who is a gifted vocalist, will render a group of Spanish songs.

Miss Isabella Veckl, daughter of Dr. and Mrs. Victor Veckl of Danville, will give a Spanish dance. The De Soto Brothers, of Concord, well known as troubadours of the old Spanish American days, will sing Spanish songs accompanying themselves on their guitars, just as they have done to the delight of Contra Costans for more than a quarter of a century.

The Campfire Girls will give a touch of pioneer life by appearing in Indian costume.

A brief address on the history of Contra Costa county will conclude the program.

BAR ASSOCIATION HOLDS CONVENTION AT STOCKTON

The fourteenth annual convention of the California Bar association will start in Stockton on Thursday and continue until Saturday. The delegates from Contra Costa county are J. E. Rodgers, M. R. Jones and T. H. DeLap.

Eight Are Fined Gambling Charge

Louis Miller, proprietor of an establishment at 269 Sixteenth street, and seven men found in the place at the time, were taken into custody by local police officers last night on charges of gambling. The men were taken before Police Judge Roth at once and Miller paid a fine of \$50. Others who were arrested paid fines of \$10 each, they were Mike Olinick, Joe Frank, Nils Johnson, Ed Barry, Charles Cochen, Hong Wing and Ray Davis.

Suit Against Santa Fe Will Be Heard In Federal Courts

On petition of the Atchison, Topeka and Santa Fe Railroad, a Kansas corporation, Superior Judge A. B. McKenzie at Martinez has ordered transferred to the federal court three suits directed against the company asking damages of \$125,000. The suits instituted by Mrs. Dora Spracklen and her four year old son, Douglas Jr., and Harold Rives were the outgrowth of an accident at El Cerrito on June 23, when Douglas Spracklen Sr., was killed and Rives injured when a Santa Fe train struck an automobile in which they were riding. Mrs. Spracklen is asking \$75,000 and \$20,000 for her son while Rives asks damages of \$30,000.

QUIET TITLE SUIT

Judge A. B. McKenzie yesterday held for the plaintiff in a suit to quiet title to lots located in Richmond. The suit was instituted by W. N. Bowry, against Courtney L. Moore and others. Judgment was also granted to Elizabeth D. Soto against Louise Mann to quiet title to two lots in Richmond.

RICHMOND REAL ESTATE MEN TO LEAVE FOR STATE CONCLAVE TODAY

Realtors of the eastbay section met last night at the Hotel Oakland to make final arrangements for the excursion to the state real estate convention starting in Sacramento tonight, and at the final count it was found that more than 200 brokers and salesmen will join the caravan composed of Oakland, Alameda, Piedmont, Albany, Emeryville, Richmond, Berkeley and San Leandro real estate men.

Richmond will be represented by several men at the opening session tonight and more will go to the capital city before the conclave ends. The convention starting tonight will be one of the largest in California real estate history, according to F. F. Porter, president of the Oakland Real Estate board and one of the prominent boosters in the eastbay district.

Two great caravans of realtors will motor to Sacramento, one coming via the Ridge Route from Southern California, and the other from the San Francisco bay and Santa Clara valley territory.

Reservations of delegates at Sacramento presage an attendance of more than 1,000 delegates, many of whom will be accompanied by their wives. The state convention will be called to order Thursday morning by President Frazier O. Reed of the California Real Estate association. The main program is divided into five great conferences under the heads of state real estate department, multiple listing, city property, country lands and salesmanship.

National President Coming
L. F. Eppich of Denver, president of the National Association of Real Estate Boards who arrived in Los Angeles October 2 for a ten days' stay in California, will attend the convention during all four days. On October 3 he will be the guest of the Los Angeles Realty board at luncheon; October 4 at the Pasadena board luncheon and dinner in his honor at Long Beach; October 5, the dinner in his honor at San Diego; returning to Los Angeles, he will leave for the north via the Coast route and has been invited to spend a day in the Santa Clara valley with State President Reed. At San Francisco and Oakland President Eppich will be the guest of the realty boards and accompany the bay caravan to Sacramento.

Prominent Speakers
Among the speakers at the state convention the following have been invited: Speaker Frank F. Merriman; Bishop William Hall Moreland of Sacramento; Dr. E. M. Rastall of Californians Inc.; Dr. A. William Olmstead of the U. S. C.; William May Garland, former president National Association of Real Estate boards; State Controller Ray L. Riley; former Real Estate Commissioner F. H. Bloodgood; State Real Estate Commissioner Edwin T. Keller; Dr. Jesse A. Russell; Hon. D. W. Carmichael, former mayor of Sacramento; Assemblyman Frank Ekward; John F. Keogh, president California Title association; J. V. Mendemhall, president California Approved Land Settlement association; Paul Shoup, vice president Southern Pacific Railroad company; Congressman Henry E. Barbour of Fresno; C. L. Seagraves, general colonization agent Santa Fe Railway; N. H. Sloane, manager California Development association; and many others.

Richard J. Jose, the famous tenor, will sing "Silver Threads Among the Gold."

RANCHER'S LIFE SAVED BY WOMAN WHEN CLOTHING CATCHES FIRE

MARTINEZ, Oct. 9.—If Frank W. Deacon, 50, a rancher, survives burns received while fighting a grass fire near Pleasant Hill, he will owe his life to Mrs. Peter Melino, according to other fire fighters who saw the woman rescue Deacon from what appeared to be certain death. His condition tonight is critical.

With poultry products in a light automobile Deacon yesterday was driving from his ranch to this city. Near Pleasant Hill he joined a group of residents in fighting a grass fire which was out of control.

While wielding wet sacks along the roadside, Deacon's clothing caught fire.

He was enveloped in flames and unable to help himself. Mrs. Melino rushed to his assistance and literally tore the burning clothing from his body.

The woman's hands were badly burned and she was treated at the emergency hospital here.

Plans Completed For Yacht Trip Of Junior Elks

Junior Elks made final arrangements for their yachting trip to a committee meeting held last night, and announcement was made that 235 have already made reservations for the trip, which will be held Sunday. Reservations are limited to 250.

The yacht, which has been secured from Crowley, of San Francisco, will leave Crowley's pier, No. 15, at San Francisco at 11:30, and those leaving from San Francisco will be able to board it there. It will leave the Richmond wharf at 12:30, going first around the fleet in San Francisco harbor, then through Golden Gate where the picnicers will be given an opportunity to view the wreck just outside the harbor. The yacht will then journey to Paradise Park, which has been reserved for the Junior Elks. A picnic lunch will be held, to be followed by a dance, for which a five piece orchestra has been secured. The yacht will return to Richmond at 9 o'clock.

Thirty members of the Junior Elks' band attended practice held last night under the direction of John Mills, and rapid progress was reported.

Rodeo Man Killed In Ditch Cave-in

Joe Joyce, of Rodeo, 53, was killed late Monday afternoon when he was partially buried when earth caved in a sewer ditch in which he was working at Rodeo. An autopsy performed at the Brunser funeral parlors at Martinez yesterday revealed that three ribs had been fractured and that they pierced veins causing an internal hemorrhage.

Joyce was soon discovered by fellow workmen who removed his body from the ditch and called Dr. W. A. Rowell of Crockett. The physician pronounced Joyce dead as soon as he arrived. Joyce's head and shoulders were not covered by the earth slide and he was able to breathe which at first caused belief that he died of heart failure. The ditch in which he was partially buried was eight feet deep.

Joyce is survived by a widow. Time of an inquest into his death has not been fixed.

Cupid Wins In Heart Battle: Couple Rewed

Cupid and the lawyers are having an interesting engagement fighting over Mrs. May P. Souza and Joseph Souza, divorce and remarriage coming so close together it is uncertain whether the God of Love or the Goddess of Unrest is victorious.

Several weeks ago Mrs. Souza was granted a final decree of divorce in Contra Costa county from Joseph Souza, mechanic for the J. P. Strom Automotive company. Monday the couple was remarried at Santa Rosa, returning to Richmond yesterday, and Cupid smiled contentedly.

GIVES RULES FOR FIRE PREVENTION

Following the proclamation of President Coolidge making this week, October 8 to 12, Fire Prevention Week Fire Chief Lemoin has issued the following general rules to be followed to prevent fires and is endeavoring to secure speakers from San Francisco or Oakland to explain the measures of fire prevention being taken in those cities.

Following are six general rules to be followed that will greatly reduce the danger of fire and make Richmond safer and prevent many property losses:

- 1—Clean all chimneys and flues, before starting winter fires when they have not been used through the summer. Cleaning and repairing once a year will often prevent fires even when they are used the year round.
- 2—Never allow oils or gasoline to be left near open flame or store it above ground.
- 3—Keep all oily rags and mops in metal containers, to prevent fires from spontaneous combustion.
- 4—All electric heating and lighting equipment should be installed carefully and given regular inspection.
- 5—Careful attention to the removal of all rubbish from cellars, attics and cupboards. Inflammable material in out of the way places causes millions of dollars loss every year.
- 6—Lighted matches, cigarettes and cigar butts should be carefully pinched out and then put where nothing could be ignited.

Wants Speakers Here
Chief Lemoin explained last night that he has been trying to get expert fire prevention men from the Oakland and San Francisco fire departments and the National Board of Underwriters. He has been unsuccessful so far, the demand being much greater than the limited supply.

Chief Lemoin has studied the prevention methods used in Oakland and is a strong believer in the strictest system of inspection and fire prevention. The Oakland fire department has a battalion chief in charge of the prevention force, consisting of five other men and a stenographer. During each week the men in the regular companies are sent out a few hours each day as they can be spared and make inspections of conditions and report spots that should be cleaned up or changed to lessen the fire risk.

Seventy-two hours later another inspection is made and if the correction has not been made the prevention department is notified. If ordinary second notification will not cause the property owner to remedy the trouble the ordinance requiring proper precautions is invoked and the offender arrested.

Men Are Trained

In this way the men are trained in inspection and fire prevention work and every portion of the city is kept under supervision so that no fire traps are allowed to stand as a

DECLARE ONLY ONE LOCATION IS SUITABLE; PLAN FOR CAMPAIGN

Following reports of doctors present that the site adjacent to the city hall is the only practical one that has been suggested for the location of the proposed Harding Memorial hospital, the Richmond Hospital association endorsed the site last night at the meeting of the association in Richmond clubhouse and will go forward with its campaign to assure the passage of bonds for its erection.

The doctors stated that the hospital will be largely supported by the the doctors and patients and therefore it will of prime importance that the building be where it is easily accessible and within reach of both the car lines and good automobile roads.

All other sites suggested have been far from the center of the city, in some cases outside of the city limits, and to erect a building in such a place, according to the doctors, would be to defeat its purpose and make the building a useless investment.

The site-endorsed is the one relinquished by the American Legion adjacent to the city hall and is now owned by the city.

The remainder of the meeting was devoted to discussing ways and means of securing the passage of the bonds and carrying the hospital campaign to a successful conclusion. The bonds for the building will be voted at the special election November 6 and must pass by a two thirds majority to become effective.

Trial of Three On Charge of Arson Starts at Martinez

Trial of James Morris, Kenneth Johnson and Charles Tracy on grand jury indictments charging them with arson opened yesterday before a jury in Superior Judge A. B. McKenzie's court at Martinez.

The trio were indicted two months ago following the firing of an old saloon building in Antioch, alleged to have been rented by Morris and owned by Mrs. Julia Harding. The authorities claim that Johnson and Tracy confessed knowledge of a plan of Morris to fire the structure, but, according to officers, Morris has consistently denied any implications in the plot.

Morris is represented by Attorney Tsar Calfee with Leo Torrey and T. J. O'Leary appearing for Johnson and Tracy. T. H. DeLap is prosecuting the case.

The jury is composed of Mary E. Hayward, Arthur D. King, William Picton, Albert S. Lilly, Mrs. Euphemia Kane, George W. Honogger, Mrs. Eleanor Vaughn, E. Woods, John Grierson, Mrs. E. E. Jarman, Martha E. Parker and Fred W. Hess.

Los Angeles—Ninety-five per cent of material going into new Biltmore hotel produced in Los Angeles.

menace to the surrounding property and the lives of persons living nearby.

Chief Lemoin has studied this system with the ultimate aim of securing like protection for Richmond when the force is allowed enough extra men to make it possible. At present one man is furnished for relief work and must relieve the 22 other men in the department, both for their days off and for sick leave.

Viola Dana Star in Her Fatal Millions At The Macdonald

"Her Fatal Millions," Viola Dana's newest Metro starring vehicle, and one of the most charming and amusing photoplays of the year is coming to the Macdonald theater today. Miss Dana calls it the best picture she has ever made and that statement has aroused the highest delights of anticipation among the followers of this tiny, vivacious comedienne.

A photoplay can well be awaited with keen interest because, according to advance reports, it is the highest type of wholesome, rollicking comedy, spiced with dramatic thrills and surprises. Little Miss Dana romps through the closely knitted story in her most vigorous and fascinating manner. The role is her greatest triumph in delicious, high-power, rapid fire comedy drama. Her role in "Her Fatal Millions" gives Miss Dana opportunity to display her versatile talents.

The story is concerned with a girl who "borrowed" jewels, furs and a limousine (without the knowledge of the "lenders") in order to meet an old sweetheart on his own level. Mary even told Fred that she was the wife of the richest man in town. So when her "borrowed" limousine is wrecked, Fred naturally takes her to her "husband's" home. That's only the beginning of a series of amusing and surprising complications. And the methods Mary uses to untangle herself are screamingly funny.

MANY ATTEND BIBLE CLASS

Meetings of the Undenominational Adult Bible class are becoming more popular and the meeting last night was attended by an unusually large crowd. The meeting was held at the Baptist church. This was the second session of the class and work has started in earnest. Membership in this class is expected to increase rapidly and a record attendance is anticipated at the next meeting.

ACTION AND REACTION

(WHEN Newton formulated his famous and still sound laws of motion he stated the principle that every action in the universe is accompanied by an equal and opposite reaction. Reduced to a ridiculous but still tenable example, if one drop a marble on the earth, the force the marble exerts in striking the soil is exactly equalled by a force with which the solid earth resists the blow of the pellet.

Now that the philosophers are applying the newer doctrine of relativity to all affairs of men as well as to the sublime motions of the cosmic forces and integers, it becomes within some limits, possible to define Newton's law of action and reaction in human terms.

Every human force causes some reaction. When the governor of Oklahoma hurled himself into a fight over methods of law enforcement in his state he created opposition. For a time he went from one to another but, unfortunately for his program each new move of the executive seemed to breed new opponents. Now that he has seen fit to deny the press and the elected representatives of certain rights they feel they possess as a matter of constitutional justice, and now that he has denied the whole people a right which Americans will always jealously cling to, he has organized against himself a force which is greater even than that of a governor backed by the loyal and lloyebhtexciute. oorfmhich, a

The citizen soldiers of Oklahoma will undoubtedly obey the commander in chief. But, that reaction has set in. The people, greater in their power than even the citizen soldiers said they desired a special election the governor wanted stopped. Courts civil authorities and civilian population, however, they may have been torn apart and separated by hostilities and prejudices, seem to have united in defense of a common possession of which they suddenly felt they were being deprived. Whatever their schisms over religion, politics and the propriety of certain movements of members of the populace they forgot them when they awoke to the fact that this governor, continuing a policy of force which was certainly legal in its inception and possibly justified in its motives, had suddenly begun treading on something sacred beyond the sacredness of an elected chief.

LIFTING THE DEBT BURDEN

AT the end of August, the net debt of the government after deducting the balance of the general fund in the hands of the treasurer was \$21,947,572,379.74. The total is about \$40,000,000 less than at the end of July, and is steadily being reduced under the able management of Secretary Mellon. Refunding operations from time to time cause fluctuations in the rate of decrease, but the unfailing tendency is toward relief from the debt burden. It is pertinent to remark in this connection that if the money borrowed of American taxpayers by foreign governments be repaid our national debt would be cut in half.

MORE LEAGUE BUNK

THE league of nations drew up a plausible armaments agreement and then invited every nation in the world to sign. It provided in substance that signatory countries could have what arms they needed for national defense and could sell what they pleased to each other, but not to those countries which refused to sign. It really fixed no limitations at all and was so interwoven with the league itself that the

United States could not approve. If the league really wants to produce an effective arms treaty, it can follow the Washington naval armaments pact for a model.

TRAIN HOLD-UP PLANNED

IN view of the vicious assaults that the radicals of the next congress are planning to make on the railroads it is likely that the administration will not complicate matters by pressing legislation calling for the consolidation of the roads into regional systems or for any other serious amendment of the transportation act.

Railroad managers have indicated to President Coolidge their willingness to work out their salvation under the terms of the act if only they are let alone while they are doing it.

Other republican policies are indirectly benefitting the roads, and making it easier for them to operate under a small profit even under the severe restrictions that are now in force.

The protective tariff, the reduction of taxation and the withdrawal of "too much government in business" has given courage to industries all over the country and their recent tremendous expansion has meant more business and a larger income for the railroads.

It is probable that the efforts of conservative republicans in the 68th congress will be devoted more to preventing the enactment of destructive rail legislation by the radicals than to imposing legislation now in force.

MAKING HONESTY SAFE

MACHINERY wages incessant war against the crook. Which wins?

An ingenious machine has recently been invented which makes it impossible for a receiving teller to frisk the depositors money. He enters all deposits in cash books with a machine that at the same time prints the sum, both in the book and on a ribbon of paper that is enclosed in a locked box. At the end of every day the tape is taken from the box and every entry thereon originally a credit to the depositor, now becomes a debit of the teller and a check on his work.

The contest between the safe manufacturer and the safe breaker goes merrily on. It is closely parallel to that between the builder of battle ships and the inventor of explosives. At the moment the gun maker is victorious. Both are tests of the defensive strength of steel. Just now the safe breaker has the advantage. The acetylene torch, reinforced by oxygen can not only cut a window in any safe that has been made, but literally consumes the steel.

Since 95 percent of all financial transactions are carried on by the use of checks, unusual ingenuity has been employed in mechanical check protection. Reliance has been put in special papers and in paper perforating devices which precautions would be sufficient if they could be kept in legitimate hands. But, no paper has ever been devised that can not be purchased or imitated by a crook, and any check protecting machine can be bought by any one who finds it worth while to own one.

On the whole, machinery cannot be depended upon to make the world honest. The most it can do is to set more difficult problems for the clever crook. By insurance of various kinds, we may recover losses that come thru theft and deceit.

RICHMOND LOSES TO FREMONT HI

LOCALS DEFEATED BY 6 TO 0 SCORE IN FAST CONTEST

Richmond high school 130-pound team fought through four quarters of fast and evenly contested football with the Fremont high 130-pound team yesterday afternoon, neither team registering a touchdown in the contest with one goal resulting from a trick cross in the second quarter.

The Red and Blue lightweights are putting up a first class band of yesterday afternoon making a quota of downs and holding Fremont to short gains and making them kick often. In the second quarter the Oakland lads played several line bucks on the left side to the local pigskin men off guard and then played a criss-cross with the right half carrying the ball toward the left tackle. Just before he hit the line he passed the under the arm to the opposite side who ran back of the line and yards to a touchdown.

The attempt for the extra point failed and the score remained at 6 until the final whistle blew. After the first trick the Fremont team tried a number of others, but Richmond gridsters were not off guard again. The attempts were always stopped, many a loss to the visitors. Forward passes were not used by the team, line bucks and end forming the larger portion of offensive. Richmond high lightweights were especially adept in line gains with end runs and ran away from their heavier opponents for long gains.

The Richmond 130 pound team Berkeley high 130 pounders yesterday and are confident that they will not lose the next engagement. Though the Berkeley team has had up a strong defense and a fast offensive, enabling them to beat Fremont 13 to 0 the Richmond feels that it has learned enough from the Berkeley team's scalp to Richmond.

The lineup starting yesterday was: Cassidy, center; Coakley and Fraguards; Hitchison and Butcher; Dalton and Villilovous, ends; and Healey, halfbacks; Siegel, quarterback; and Milans, fullback. Conner, and Ed Carson acted substitutes. Carson was particularly complimented for his work at after he got in the game.

D. Horner refereed during the contest.

SERVICE MEN BUY HOMES DURING JULY
During July, 1923, 38 veterans of World War purchased homes under the veterans welfare laws of the state, for a total of \$173,500. The veterans obtained farms at a cost of \$22,500. This was the best month in the history of the bureau, according to Robert F. Smith, secretary of the bureau.

Junior High Will Have Soccer Team

Richmond Roosevelt Junior High school will soon have a soccer team in the Berkeley Playground league if plans of "Doc" Seawright, physical director at the school, go forward as is hoped.

Seawright has been coaching the team and the inter-advisory soccer teams are now playing their league schedule. Many good players are showing up in the games and the school supporters believe a school team would stand a good chance with the other teams in the Berkeley league.

The school will be unable to enter in the American football competition this year owing to lack of equipment but the students are being given some drill in the game so that they will be able to understand the game when they enter high school.

Next year Seawright plans to start at the beginning of the year and develop both American and soccer teams.

APPOINTS DIRECTORS FOR SEVERAL REALTY BOARDS

State President Frazier O. Reed has announced appointment of the following well known realty dealers to serve as state directors for their respective boards, pending the election of the new board at the state convention in Sacramento on October 12: Compton, M. F. Renshaw; Coronado, Nathaniel Gardner; Fuller, Harry H. Crooke; Glendale, E. P. Hayward, second director; Hayward, S. C. Smith; Long Beach, E. J. Del Porte, third director; Montebello, Stanton J. Ellis; Orland, Joseph F.

Erickson; Pasadena, Robert A. Swink, second director; Stockton, Jesse J. Inman, second director; Torrance, W. A. Renn; West Hollywood, A. A. Pointer.

Of the foregoing boards, Montebello, Torrance and West Hollywood have been organized this past summer. At Long Beach, Pasadena, Stockton and Glendale, increase in state memberships held by board members, gave the boards additional directors.

There are 127 directors in the state association, each board having at least one. Los Angeles has eight directors, two being past presidents.

YANKEES WILL MEET GIANTS IN OPENER TODAY

The open game of the world's series starts at 11 o'clock today, Pacific coast time, when the Yankees and Giants line up for the initial clash. The teams are said to be evenly matched, and hard fought contests are expected.

As yet the line-up for today's battle has not been announced. Predictions as to the rival pitchers, generally name Hoyt as the Yankee twirler and Nehf as the man who will oppose him.

Already the Yankee stadium grandstand has been sold out, though not all of the reserved seats at the Polo Grounds have been disposed of. Opinion as to the probable outcome of the series seems about evenly divided.

Wife's Birthday

It was her birthday. All day, "hubby" had been wondering if the present he had bought her a few days previous was going to please her.

Like most "he men" things of that sort gave him much concern. He appreciated the fact that he was somewhat clumsy in selecting something that would please his wife, and at the same time be useful.

"I've either made a wise selection this time, or I've made a fool of myself," he muttered on his way home from the office. "I hope they haven't forgotten to send it, as they promised to do," he said as he mounted the steps to his home.

The next five minutes was filled with intense joy as he held wife in his arms and she showered him with kisses.

"Oh, you darling boy," she exclaimed between hugs. "You bought me the grandest thing in the world." Hubby felt might proud just about that time. He never before had seen his wife so happy—so charming—it seemed good just to be alive. Those happy minutes will live long in his memory.

The secret of her joy was the new Wedgewood Range, equipped with the Thermostat Oven Heat control—a device which takes the

Dredger Damaged In Collision on River

The government dredger chartered to do the improvement work in Richmond harbor was damaged coming down the Sacramento river, according to word received yesterday by Harbor Master J. H. Misner, one of the sternwheel river steamers running into the dredger and damaging it so badly it was necessary for it to continue to the shipyards at Oakland or repairs.

The damage to the dredger will not hold the work back thought, Misner says, for preparatory measures are being made to insure everything being in readiness when the ship is repaired. Poles are being driven and the high power lines necessary for power to run the dredger are being put in place now so the work can start as soon as it is out of the drydock.

How Power Rates are Figured

POWER rates in California are not fixed on a cost-plus system. Profits or dividends are not guaranteed to the companies by the Railroad Commission in fixing rates.

In order to succeed the power companies must keep down expenses by efficient management without impairing the service. Some power companies have failed, which could not have happened if profits were guaranteed in the rates. Power companies pay for any mistakes or waste they commit. Consumers never pay more for power than in the judgment of the Railroad Commission it ought to cost.

There is not and cannot be any profiteering in the power business in California under our present system. The rates are low for the service rendered.

This Is The Town That Bell Rebuilt; American Relief Administration Worker Uses Corn As Lure and Ufa Takes New Life

CIVIC IMPROVEMENT AT UFA

Ufa, in Russia, isn't the town it was. American corn pulled it out of the mud, as well as out of the famine. Pavements, bridges, sewers, even railroads have been built in and about Ufa by workmen under the direction of Colonel W. L. Bell, who hired them, not because they were strong enough to do the work most efficiently, but because they were starving, and could be paid in corn which they would have received anyway. "Those who work eat" was Colonel Bell's dictum and as everybody was hungry everybody worked.

Twenty miles of railroad, a rock-lined storm drain half a mile long, 278 new bridges, repairs to schools and hospitals and miles of new road are among the permanent improvements in the Ufa area as a result of the famine relief work as administered by Colonel Bell.

The railroad runs from Beloutze to Laphistra just south of the main line of the Trans-Siberian and just east of the Urals. It connects the Beloutze Iron Works with important coal and iron ore areas and has enabled the works to be run continuously. The storm drain is in the city of Zaleski and had been projected for years, but there was never enough money on hand to build it. When the corn came there were hundreds of men—all famine victims—who were hungry content to work for food. The 278 bridges are built across creeks and lesser rivers throughout the area. The policy of making relief and reconstruction go hand in hand has been generally pursued by the American Relief Administration. Physicians were given food packages and thereby enabled to continue their practice. The Russian doctors who carried out the program of inoculation against disease were paid with food. In so far as possible the relief given to homes and hospitals was used as a spur to raise the standards of the institutions.

Senator Smith W. Brookhart of Iowa returning from his recent visit to Russia, said that the American Relief Administration had given that country a "national education." "The idea," continued the Senator, "that in return for the food, roads should be built; hospitals and children's homes repaired and equipped; cities cleaned up and put in a sanitary condition; and that the workers should be paid in food was a wonderful one. It worked out marvelously and you will find that the Russians themselves will adopt it in the future. It is an idea of unlimited possibilities."

Laud Activities of Richmond Y. M. At Banquet Here

Activities of the Y. M. C. A. under the leadership of Secretary A. W. Mueller were heartily applauded by the directors of the association at their annual banquet at the Richmond clubhouse and his report and the recommendation that \$6,500 be raised for the 1924 budget unanimously adopted.

W. G. McMorran, general secretary of the Young Men's Christian Association for California spoke very favorably of the work being done by the Richmond secretary and his associates among the business men, and said the Richmond association is being held up as an example to other associations with better facilities.

While it was agreed by the campaign committee that a permanent building for the Y. M. C. A. is needed, it is not considered wise to ask for the large amount necessary for such a building yet, and work will be started immediately on the regular yearly budget campaign.

W. D. Mason was appointed head of the teams going out after subscriptions and will be assisted by two majors, Mayor W. W. Scott and P. M. Sanford. Majors Scott and Sanford will each choose five captains to form the teams and the entire town will be canvassed to insure a speedy completion of the drive.

Mayor Scott said he was strongly behind the Y. M. C. A. and will do all he can to help them in the future. Mason was not able to attend but sent word that he felt the campaign for funds this year would come to a speedy conclusion.

Sanford presided over the meeting and the Reverend H. K. Sanbourne delivered the invocation. A number of Richmond men expressed their pleasure at the work being done among the boys in the community by the Y. M. C. A. and promised their whole hearted support to the drive.

Jazz Holds Forth At Lions Luncheon

Jazz reigned supreme yesterday noon at the weekly Lions club luncheon, a West Oakland colored aggregation of mirth purveyors entertaining the gathering with a variety program including songs, instrumental specialties and fancy dancing. The program was arranged by the ood dealers of the club led by Tom Morgan, C. B. Hunt, Dan Tonnell and Harold Purvis.

Additional musical numbers were given by the Soldier Caruso who sang last night at the T & D theater in behalf of the overseas grave yard of the American Legion. City Attorney D. J. Hall and C. A. Withington, county court executive, provided the serious part of the program with discussions of the budget to be raised for the Contra Costa Boy Scout Council.

Reports of committees in charge of the entertainment of the Presidents, Past Presidents and Secretaries association to meet in Richmond in October indicate growing interest in the event.

Lower Tax Rate Fixed in Counties

SACRAMENTO, October 9.—The effect of the state economy campaign has had its result in causing supervisors to fix lower county rates as evidenced by the fact that 36 counties have reduced or stopped further increase and others have made only slight increases.

Governor Richardson today said: "The economy campaign is having a far reaching effect. The example set by the state in saving \$12,000,000 to the people in the budget has been reflected in the counties. The following counties have reduced their tax rates: Los Angeles, Alameda, Sacramento, San Bernardino, Tulare, Stanislaus, Kings, Sonoma, Glenn, Butte, Contra Costa, Sutter, Placer, Madera, El Dorado, Calaveras, Lake, Del Norte, Amador, Inyo, and Fresno. These, it will be noted, are among the largest in the state. The fifteen counties where increased taxation has been checked: San Francisco, Santa Clara, Yuba, Merced, Solano, Orange, Mendocino and eight others. In the counties where there have been increases the amount has been small.

"While, of course, the state has no control whatever over county tax rates, still the effect of the economy campaign I have made during the past two years has resulted in stopping the orgy of extravagance and has been felt throughout the state in the various smaller political subdivisions.

"I propose to keep up my fight to protect the taxpayers regardless of the opposition of legislative squanderers: reactionary spendthrifts, the old political machine and the taxpayers whose jobs have been abolished.

"The people defeated this motley and discredited gang at the primaries last year, at the election in the recent legislature, and are ready to give them another drubbing.

"In the final analysis the people pay every cent of taxation and the silly sophists who hold otherwise have lost their power to fool the people."

FOUR VESSELS WILL DOCK HERE IN MONTH

Arrangements Are Complete for Trio Concert Tomorrow

Arrangements are now complete for the concert to be given by the Sequoia Trio of San Francisco at the Lincoln school auditorium tomorrow night, and a large number of music lovers are expected to attend.

Those who make up the trio are Pierre Douillet, pianist, head of a conservatory of music in San Francisco and rated as one of the foremost musicians on the coast; Arthur Weiss, cellist, who has taken a prominent part in the Pacific coast musical world for the past 25 years; and Arthur Conrad, violinist, who has been highly recommended as one of the best in the country. The concert is to start at 8:15 o'clock.

Constance Plays In Comedy At T. and D. Today

"No problem plays for me," says Constance Talmadge.

Constance's latest film, "Dulcy," now showing at the Richmond T & D theater, is a comedy based on modern life and is filled with modern young people. None of the "problem trimmings," so common in plays of today, cast their shadow across the action of the characters. Yet "Dulcy" has its joys and sorrows, and Constance Talmadge runs the whole gamut of emotions from laughter to tears.

It is one of the cleverest comedies ever made by the popular Constance. It gives her ample opportunity to display her versatility and furnishes her with a vehicle admirably adapted to her type of comedy.

"Dulcy" was produced by Jos. M. Schenck from an adaptation by John Emerson and Anita Loos of the famous stage play of the same title by George S. Kaufman and Marc Connelly. Sidney A. Franklin directing. Jack Mulhall, Claude Gillingwater, May Wilson, Johnny Harron, Anne Cornwall, Frederick Esmelton, Andre Beranger, Gilbert Douglas, Mila Davenport and others having important roles.

Registration Of Minors Continued

Registration of minors in the Richmond school district is continuing this week, according to announcement yesterday of Superintendent of Schools W. T. Helm. In order that as near as complete as possible registration can be secured.

If plans of the board go forward favorably, Helm says, the registration will be completed this week and work will be started early next week in compiling the returns from the precinct.

Apparatus Is Called For Awning Fire

An awning fire at the H. N. Palmater drug store at 116 Washington avenue caused a still alarm to be sent in to the fire department yesterday afternoon at 2 o'clock, damage to the estimated extent of \$15 being done by the flames before extinguished.

The department was also given a still alarm at 11:55 o'clock yesterday morning to put out a small trash fire in North Richmond, no damage resulting from the blaze.

Pioneer Resident Called By Death

Mrs. Estella Milroy passed away at her home at 423 Fourteenth street at 1 o'clock yesterday morning at the age of 53 years. Mrs. Milroy was the wife of H. T. Milroy, motorman on the San Francisco-Oakland Terminal railroad, was a native of Pennsylvania and has resided in Richmond for ten years.

Besides her husband the deceased is survived by four brothers, George Snyder of Franklin, Penn.; John, Edward and Charles Snyder of Oil City, Penn.; and one sister, Mrs. Cora Snyder of Oil City, Penn.

Funeral services will be held from the Wilson and Kratzer chapel at 2 o'clock Thursday afternoon.

Stockholders of Mining Company Hold Meet Here

Richmond stockholders in the Sierra Mining company met last night and instructed the superintendent to complete the mill being constructed at the mine to handle the ore. \$55,000 has now been subscribed by Richmond people, 100 in number, and reports from the mine are coming in more favorably each month.

The report made last night was that the adjoining mine is working with ore assaying \$40 to the ton and the "16 ton" mine close by is taking out ore valued at \$30 a pound. The average now is \$12 a ton as soon as the mill, a \$10,000 structure, is completed, the work will progress more speedily and it is expected that high grade ore will soon be encountered.
